

## FAMILY FRAGMENTS

**PREAMBLE:** My interest in genealogy began late 1999. Over the years, a good deal of my findings were published on [www.pelteret.co.za/genealogy](http://www.pelteret.co.za/genealogy). In October 2012, I decided to move on and explore other interests.

However, the correspondence relating to prior publications did not stop. Between 2011 - 2020 over 230 persons have been in touch, either providing information complementing that published earlier or seeking specific information. A good deal of the correspondence represented considerable work and decided research acumen on the part of the correspondent.

I have been prevailed upon to publish particularly worthwhile material as an addendum to my original publications. These are they.
